

MAGNETIC STRIPE DISABLING ON EMV CARDS

Dear esteemed customer,

Exim Bank will be disabling the magnetic stripe usage for card transactions that will take place outside Tanzania. The decision has been reached after card skimming frauds taking place outside Tanzania continuously increasing across the industry. Exim Bank cards will only use secure chip feature to protect both your interest and the Bank's interests.

However, if you wish to activate your magnetic stripe for a country of your visit, kindly send a request to the Bank and activation will be done at your own risk, the Bank will not be responsible for any card skimming fraud that may happen after activating the magnetic stripe.

We advise you to use only chip compliant ATMs & POS machines for all your card transactions.

For more information, please don't hesitate to call our Call our toll-free number 0800780111 or email us customercare@eximbank.co.tz

Yours Sincerely
